# Order Your IICRC Standards Today!

The S520 is a procedural standard and reference guide for the mold remediation industry. It has been in development for almost 2 years. Participants include the remediation industry, indoor environmental professionals, doctors, lawyers, microbiologists, mycologists, safety professionals, public health professionals and other representatives of interested and related professions.

The development of this document has been in concert with many organizations. As such, we are able to offer the publication to any one that is interested in acquiring a personal copy. *The retail price of the S520 has been set by IICRC at \$120.00. The IEI order price is \$95.00 (USD) per copy, save \$25.00!*

The IICRC S500 provides a specific set of practical standards for water damage restoration. It is based on reliable restoration principles, research and practical experience. In addition, there has been extensive consultation and information obtained from numerous sources.

This Standard does not attempt to teach comprehensive water damage restoration procedures; rather it provides the foundation for and basis of proper restoration practices. There are numerous training programs available which teach specific details of restoration. **The IEI order price is \$35.00 (USD) per copy.**

Orders will be processed by Indoor Environmental Institute.

Quantity	Description	
	<b>S520 Mold Remediation Standard</b>	<b>\$95 (USD) ea.</b>
	<b>S500 Water Damage Restoration Standard</b>	<b>\$35 (USD) ea.</b>
